

Meet Your Salon's AI Phone Assistant

A real call — from “hello” to “booked” — in under a minute.

Your phone rings while you're mid-service. Usually that call goes to voicemail — and too often to your competitor. Lumio's AI Phone Assistant answers **every** call in a warm, natural voice, **24/7**. It talks with your customer, checks your live schedule, books the appointment, and texts a confirmation — on its own. Every booking lands on your Lumio calendar instantly. Here is exactly what your customers experience.

Salon name, services, and prices below are examples — the assistant uses your own.

Scenario 1 — A quick booking

The most common call. Notice how natural and fast it feels.

📞 ring... ring...

AI Assistant

“Thanks for calling Lucky Nails — this is the booking assistant. How can I help you today?”

Caller

“Hi, I'd like a gel manicure sometime tomorrow afternoon.”

AI Assistant

“Happy to help! Tomorrow I have 1:30, 3:00, or 4:15 open — which works best?”

Caller

“Three o'clock is perfect.”

AI Assistant

“Great — and may I have your name for the appointment?”

Caller

"Jessica Miller."

AI Assistant

"Thank you, Jessica — a gel manicure tomorrow at 3:00 PM, correct?"

Caller

"Yes."

AI Assistant

"You're all set — I'm texting your confirmation now. See you tomorrow at 3!"

✓ **Booked in about 40 seconds. Appointment created and confirmation text sent — hands-free.**

What you see the moment the call ends

The appointment appears on your Lumio calendar (marked with a phone icon so you know it came from the hotline), and your customer gets a confirmation text.

Scenario 2 — "How much is it?"

The assistant knows your menu and prices — and turns a question into a booking.

AI Assistant

"Thanks for calling Lucky Nails — how can I help?"

Caller

"How much is a full set with dip powder?"

AI Assistant

"A dip powder full set is \$50 and takes about an hour — would you like to book one?"

Caller

"Sure, do you have anything Friday morning?"

AI Assistant

"I do — Friday at 9:30 or 11:00 is open, which do you prefer?"

Caller

"Eleven."

AI Assistant

"Perfect — what name should I put it under?"

Caller

"Tina."

AI Assistant

"All set, Tina — dip powder full set, Friday at 11:00. Your confirmation text is on the way!"

Scenario 3 — When the first choice is full

It reads your live schedule, so it never double-books — it offers the closest open time instead.

AI Assistant

"Thanks for calling Lucky Nails — how can I help you today?"

Caller

"Can I come in at 2 today for a pedicure?"

AI Assistant

"We're fully booked at 2, but I have 2:45 or 3:30 today — would either work?"

Caller

"2:45 is good."

AI Assistant

"Perfect — and your name, please?"

Caller

"Mark."

AI Assistant

"Thanks, Mark — a pedicure today at 2:45. Texting your confirmation now!"

Scenario 4 — After hours, still open for business

The call you would have lost. It's 9 PM and the salon is closed — the assistant still books.

AI Assistant

"Thanks for calling Lucky Nails — this is the booking assistant. How can I help?"

Caller

"Oh, I didn't think anyone would pick up this late. Do you have time Saturday for a mani-pedi?"

AI Assistant

"We're here for you anytime! Saturday I have 10:00, 12:30, or 2:00 — which would you like?"

Caller

"Let's do 12:30."

AI Assistant

"Wonderful — may I have your name?"

Caller

"Angela."

AI Assistant

"You're booked, Angela — mani-pedi Saturday at 12:30, and your confirmation text just went out!"

✓ **A booking you'd otherwise have missed — captured while you slept.**

Try it yourself — 60 seconds

Don't take our word for it — call and book a test appointment:

☎ Call: [YOUR DEMO HOTLINE NUMBER]

1. Ask for any service and a day/time.
2. Talk naturally — no menus, no "press 1."
3. Give a name when asked.
4. Watch the confirmation text arrive on your phone.

Tip: try asking a price, or asking for a time that's already busy — see how it responds.

Why salon owners trust it

- ✓ **Never miss a call.** Answers 24/7 — during services, after hours, weekends, and holidays.
- ✓ **No double-booking.** It reads your live calendar and only offers times that are truly open.
- ✓ **Every booking on one calendar.** Hotline, online, and walk-ins all land in Lumio automatically.
- ✓ **Instant SMS confirmation.** Fewer no-shows and fewer forgotten appointments.
- ✓ **Warm and human.** A friendly voice, not a robotic phone tree.
- ✓ **You stay in control.** See, edit, reassign, or cancel any booking in seconds.
- ✓ **Your brand, your rules.** It answers in your salon's name, with your services and prices.

Ready to stop sending customers to voicemail? Let's turn on your AI Phone Assistant.
